EXPERIENCE

Software Development Engineering I   May 2024 - Present
Byteridge   *Remote*

- Building modular and scalable **React** components in a **Next.js** project using **TypeScript** and **Material UI**, while implementing **Redux** for state management and integrating **RESTful APIs** to ensure smooth data flow and maintainability.
- Successfully led a key module from design to production while guiding interns and conducting **PR reviews** to maintain code quality and best practices.
- Managing **CI/CD** pipelines with **GitHub Actions**, streamlining automated builds, and deployments.

Software Development Engineering Intern   August 2023 - October 2023
Byteridge   *Remote, Hyderabad*

- **Developed API methods** with a focus on data operations, utilizing **Prisma Client with PostgreSQL** using **Node.js and Express.js.** Additionally, created user-friendly API documentation using Swagger.
- Constructed over 150 unit tests using **Chai and Mocha** for API endpoints, achieving a **code coverage of 90%**. Implemented **SonarQube** for ongoing code quality analysis, maintaining high coding standards throughout the project.

PROJECTS

Chessmates 🐙 🔗
Next.js, React.js, TypeScript, ShadCN, Tailwind, Node.js, Express.js

- ChessMates is a comprehensive social media platform tailored for chess enthusiasts built with **Next.js, React, and TypeScript** for frontend, **Node.js and Express.js** for backend.
- Styled with **ShadCN/Tailwind**, **TanStack Query** for data fetching, **Auth.js** for authentication, and **Redis** caching for optimal performance.

Bloodbank Management System 🐙 ▶️
React.js, Node.js, PostgreSQL, AWS

- This website connects blood storage facilities to manage blood supply and demand. It also allows citizens to find and register for donation camps in their area.
- Used AWS services like RDS (**data storage**), SNS (**SMS notification**), Amplify (**Hosting**), **API Gateway** to deploy my own REST API and wrote Lambda Functions in node.js to create a **serverless** project.

ComfySloth 🐙 🔗
React.js, Styled Components

- Developed an e-commerce website with authentication powered by **Auth0**, payment processing via the **Stripe API**, and content management utilizing **Airtable**.Implemented a responsive and modular UI design using Styled Components.

SKILLS

Frontend :	NextJS, ReactJS, Redux, Tailwind, Tanstack query
Backend :	Node.js, Express.js, MongoDB, PostgreSQL,Prisma, Supabase
Devops :	Docker, AWS(EC2,ASG,RDS,Amplify,SMS)
Tools :	Git, Github, NeoVim, VSCode, Figma, Git, Postman

EDUCATION

BE Computer Science, Vidyalankar Institute of technology, CGPA: 9.78	2020 - 2024
HSC, IES Junior College, Result: 84%	2018 - 2020
